

3+ Classroom Notes May 2017

We will start off the month of May getting ready for our Mother's Day Tea Party! Our tea party (with iced tea) will be on Thursday, May 11th at 11:30. Moms, please try to be there or have someone else special there to share this fun time with your child. Also, if you can, please try to make other arrangements for siblings. Thanks!

Later in the month, we will learn about insects. We will continue to observe our real classroom caterpillars, and we will make caterpillar/butterfly puppets and learn a new poem. We'll be counting everything from bugs to flowers, and lots more. We will practice our ABCs, and hear and act out the fun story, *Caps for Sale*. And, we will finally complete and take home our very own counting books that we have been working on for the last several months!

See you in the classroom...
