

## **3's Class January, 2018**

**Happy New Year! I hope you all enjoyed our WHITE Christmas!  
Welcome back!**

**I am always happy when January comes around. The rush of the holidays is over and a bit more calm can come to the classroom.**

**This month we will be talking about winter and the animals who live in the snow. We will also be having a very fun Opposite Obstacle Course this month that I have found the children absolutely love.**

**I'm so glad that most of the children now have mittens and boots to put on for recess. Make sure to keep them coming, as a lot of times January is colder and has more rain than December. Keeping them warm keeps them happy.**

**And yes, we actually have another day off this month on January 15<sup>th</sup> for Martin Luther King Day, Jr.**

**Please make sure to let me know if you have any questions or concerns.**

**Lindy Poole**
